In re Letters Patent of:
David A. Fischhoff et al.

Patent No.: 7,741,118

Issued: June 22, 2010

For: SYNTHETIC PLANT GENES AND METHOD
FOR PREPARATION

REQUEST FOR CERTIFICATE OF CORRECTION PURSUANT TO 37 CFR 1.323

Attention: Certificate of Correction Branch
Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

The above-identified patent was issued with a printing error. This paper is filed to request correction of the error.

The error was a Patent Office error in failing to print ten claims of the patent. The unprinted claims were set forth as claims 165-174 at page 18 of an amendment dated April 9, 2010. These claims as filed depended from claim 164, which was renumbered as claim 103 in the issued patent. In a paper dated April 16, 2010, the Examiner directed that “The amendments to the claims are entered.” (The Examiner declined to adopt the Applicant’s suggestion for *renumbering* of the allowed claims at that time.)

Because the claims were entered by the Examiner but not printed in the patent, the correction being sought is a Patent Office error, and no fee is believed to be due. The claims presented in the certificate of correction are identical (other than renumbering) to claim 165-174 as allowed. Thus, the correction does not involve new matter or require reexamination. Transmitted herewith is a proposed Certificate of Correction.

The Director is hereby authorized to charge any necessary but unpaid fees to Marshall Gerstein's Deposit Account No. 13-2855, under Order No. 28079/41785.

Dated: April 19, 2011

Respectfully submitted,

By: David A. Gass #38,153/
